## A Home Away From Home

Schervier Nursing Care Center's two new respite suites offer families and caregivers a temporary break and provide a home away from home for your senior loved one.

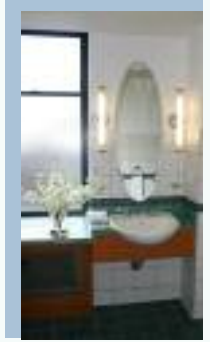

Respite is a scheduled short term stay for someone who needs nursing care but who is usually looked after at home.

Schervier's goal is to provide "respite" for the caregiver and a warm, secure, nurturing environment with individual care plans for your family member.

Admission to the Respite Program allows the primary caregiver to take a vacation, get medical attention or needed time away from the day-to-day demands of caregiving.

Schervier's respite suites are beautifully designed private suites, with a bedroom, living room and bathroom. Our accommodations provide 24-hour nursing care, supportive services and amenities including access to a barber/beauty salon, private telephone with free local calls and private TV with satellite programming.

A physician will be assigned to meet your loved one's needs. Private pay or Medicaid are accepted.

## Access to Schervier Programming

Respite guests who have a diagnosis of dementia are invited to participate in the Therapeutic Recreation Program in the Schervier Center for Alzheimer's and Dementia Care. Activities are scheduled Monday through Friday, run by staff trained in dementia care.

Please schedule a tour of a respite suite so you can see for yourself the beautiful environment and loving care enjoyed by our respite guests. Call us toll-free at 1-800-260-5006.
